Contents Volume 78

Contents

A novel image watermarking scheme based on support vector regression
R.-m. Shen, Y.-g. Fu and H.-t. Lu 1

Relevance feedback using adaptive clustering for image similarity retrieval
D.-H. Kim, C.-W. Chung and K. Barnard 9

OPERA: An open-source extensible router architecture for adding new network services and protocols
B.C.B. Chan, J.C.F. Lau and J.C.S. Lui 24

Lightweight multigranularity locking for transaction management in XML database systems
Y. Choi and S. Moon 37

A least upper bound on the fault tolerance of real-time systems
R.M. Santos, J. Santos and J.D. Orozco 47

Remarks on Wu–Hsu's threshold signature scheme using self-certified public keys
H. Bao, Z. Cao and S. Wang 56

Overcoming the obfuscation of Java programs by identifier renaming
S. Cimato, A. De Santis and U. Ferraro Petrillo 60

DDH-based group key agreement in a mobile environment
J. Nam, J. Lee, S. Kim and D. Won 73

An information flow control model for C applications based on access control lists
S.-C. Chou and C.-Y. Chang 84

Automatic detection and correction of programming faults for software applications
P. Deeprasertkul, P. Bhattarakosol and F. O'Brien 101

Bi-directional safety analysis of product lines
Q. Feng and R.R. Lutz 111

Software complexity and its impacts in embedded intelligent real-time systems
E. Coskun and M. Grabowski 128

Efficient online computation of statement coverage
M.M. Tikir and J.K. Hollingsworth 146

Two controlled experiments concerning the comparison of pair programming to peer review
M.M. Müller 166

FNDS: a dialogue-based system for accessing digested financial news
K.C. Lan, K.S. Ho, R.W. Pong Luk and D.S. Yeung 180

What do software practitioners really think about project success: an exploratory study
J.D. Procaccino, J.M. Verner, K.M. Shelfer and D. Gefen 194

doi:10.1016/S0164-1212(05)00148-2

A framework for assisting the design of effective software process improvement implementation strategies
M. Niazi, D. Wilson and D. Zowghi 204

Pinned demand paging based on the access frequency of video files in video servers
Y.-F. Huang and H.-M. Ho 223

Distributed multiple selection algorithm for peer-to-peer systems
A. Loo 234

Worst case constant time priority queue
A. Brodnik, S. Carlsson, M.L. Fredman, J. Karlsson and J.I. Munro 249

Adaptive row major order: a new space filling curve for efficient spatial join processing in the transform space
M.-J. Lee, K.-Y. Whang, W.-S. Han and I.-Y. Song 257

HANet: a framework toward ultimately reliable network services
Y.-J. Jiang, D.-W. Chang and R.-C. Chang 270
